# EU Type Examination Certificate

Date: 2021/10/22

n. **925214201/OE**

Validity:  
2026/10/21

Technical Standard: **EN 13594:2015** Protective gloves for motorcycle riders – Requirements and test methods.

Intended use: for motorcycling activities, intended to give protection against ambient conditions together with limited mechanical protection to the hands and wrists in accidents

Size range: MEN's sizes: from XS to 4XL

Technical File: **DC-13156**

Test report: **RCT n° 4041815/E**

Functions and performance levels: EN ISO 21420:2020:  
**Protective gloves. General requirements and test methods:**  
the gloves satisfy the general requirements of design and manufacturing, innocuousness, ergonomic properties.

**Protective gloves for motorcycle riders:**

According to the basic requirements tested and assessed, this glove has obtained an overall performance level of **1.** (\*)

**KP = additional property** indicating the presence of the knuckle protection.

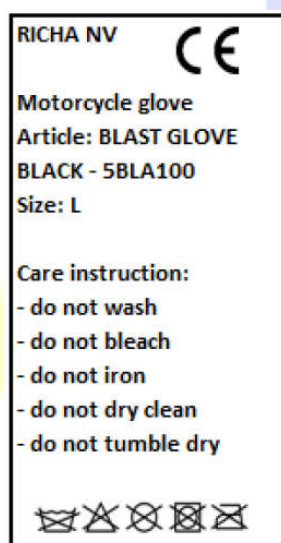

(\*): The higher level provided by the technical standard is level 2, granted to gloves providing an increased protection with respect to level 1 but might have weight and ergonomic restriction penalties.

Marking: printed on different labels stitched to the glove and displaying the following information:

- **CE Marking;**
- Name, Trademark, address and website of the Manufacturer;
- item designation (article name + alphanumeric code);
- pictogram for motorcycling use with indication of the overall level of performance achieved during laboratory tests + symbol **KP** indicating the presence of the knuckle protection + nr. and year of the Standard of reference;
- pictogram of the "I in the booklet" inviting the final user to read the User Manual;
- additional information: commercial size + composition materials + care symbols & instructions on separate labels, batch number, date of production, "Made in..."

**MADE IN PAKISTAN**

**BLACK (5BLA100)**
