EU Type Examination Certificate

Date: 2021/09/22

n. **925213802/OE**

Validity: 2026/09/21

The Lab, art. **SW 255** - by Smooth Ways International.

Technical Standard:	EN ISO 13688:2013 EN 17092-4:2020	Protective clothing – general requirements Protective garments for motorcycle riders – Part 4: Class A garments – Requirements
Intended use:	Motorcycling: preventive use – correct fitting and positioning of the inner protections are essential.	
Size range:	WOMEN's sizes: from DXS to D6XL NOTE: D = Dame = Woman	
Technical File:	DC-13446	
Test report:	RCT n° 4041207/E	
Functions and performance levels:	<p>The garment offers limited protection against mechanical risks arising from impact and abrasion in case of a fall while participating in motorcycling activities. This PPE item has reached the following performance: Class A(*): Class A garments offer a minimum necessary degree of protection from impact and abrasion and are expected to have the least ergonomic and weight penalties.</p> <p>(*) The Standard provides different classes of protection for garments including protectors/shells: AAA (highest class), AA (middle class) and A (lowest class); class B is for garments not including protectors / shells = just abrasion protection; class C is for impact protector ensemble garments.</p> <p>NOTES: the protection provided also depends on the correct fit of the garment; the CE-Certified incorporated impact protectors provide strengthened protection and must be kept in their place: this falls within the responsibility of the user.</p>	

Marking:

printed on stitched labels displaying the following information:

- **CE Marking**;
- name, trademark, address and website of the Manufacturer;
- item designation;
- pictogram to indicate the intended use (motorcycling), class of protection achieved, nr./year of the reference Standard;
