Date of Manufacture (month/year) and/or Serial number :

Marking example :

L/9

Marking of packaging example :

Method of marking on the glove :

Labels stitched inside the cuff

Packaging :

Plastic bag with product label

PPE subject to ageing :

Peremption period : 5 years after the first use when stored in appropriate conditions (humidity, temperature, clean , ventilated, light). Before use, the glove shall be visually controlled, in case of deterioration the gloves must be scrapped (abrasion, cut, tear, …).

MEANS OF CONTROL

1. Research and development
2. Sourcing
3. Purchasing
4. Documentation and traceability
5. Receipt of raw materials / Control of supplies

- Testing of raw materials in laboratory: pH & Azoïcs test with every new shipment
- Measuring of material weight before accepting shipment to make sure the identical g/m² is purchased as before

6. Quality control during glove manufacturing
7. Quality control of finished gloves
8. Quality control packaging & labels
9. Quality control finished shipment
10. Quality control necessary documents
11. Receipt and inspection of documents and gloves at headquarters
12. Written evaluation finished order
