## ULTRA SLIM, SPACE-SAVING DESIGN

### Description

The dedicated Moto Cradle motorcycle support for iPhone 7 Plus was designed to ensure maximum ease of installation of the Smartphone on motorcycles.

It is extremely compact and perfect for motorcycles with handlebars complete with technological instrumentation. Its ultra slim design allows quick installation on any motorcycle, ensuring minimum dimensions and maximum ease of use.

The Moto Cradle support allows installation of the iPhone 7 Plus on the handlebar without a case, thereby taking advantage of the certified water resistance of the device.

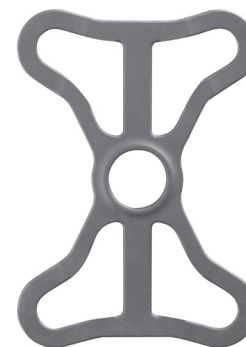

The Moto Cradle includes a mounting bracket for tubular handlebars with a diameter of between 16 and 30 mm and a four-corner silicone security system to completely secure Smartphones. It is compatible with all Cellularline optional brackets allowing use of the support on any two-wheeled vehicle.
